Professional Summary

Full Stack and Backend Software Engineer fresher pursuing advanced technical studies, focused on backend architecture, scalable web development, and Generative AI integration (LLMs, RAG, Prompt Engineering). Demonstrated capability in designing distributed web frameworks, developing robust RESTful APIs, and implementing automated testing pipelines. Committed to process optimization, strict data integrity, clean code principles, and building high-performance applications that deliver reliable user experiences.

Work Experience

Full Stack Web Development Intern <i>The Website Makers, India (Remote)</i>	Sep 2023 – Oct 2023
- Streamlined backend data flows by designing, developing, and deploying robust RESTful APIs using Python and Node.js, successfully maintaining 99.9% system uptime across cloud environments. - Automated routine data validation protocols and enforced strict web security standards, reducing reporting errors and eliminating daily manual effort by saving 4 hours of redundant processing time. - Executed highly accelerated SQL scripts within PostgreSQL databases to accelerate complex data extraction, resolving performance bottlenecks and boosting query response efficiency by 35%. - Authored comprehensive technical documentation for API endpoints and microservices, ensuring cross-functional alignment and strict adherence to enterprise software delivery standards.	

Key Projects

Employee Leave Management System <i>PHP, MySQL, HTML, CSS, JavaScript, Apache</i>	May 2026 – Jun 2026
- Architected a full-stack SaaS web application featuring Role-Based Access Control (RBAC), securely managing 50+ employee and manager workflows across the entire SDLC. - Developed robust backend APIs using PHP and MySQL, supporting RBAC and workflow features across 10+ core API endpoints. - Enhanced MySQL database schemas and queries, reducing response times by 35% for critical workflow data.	
AI-Integrated Social Media Platform <i>React.js, JavaScript, Python, Generative AI</i> Live Demo	Jan 2025 – Mar 2025
- Developed a responsive, modern front-end user interface utilizing React.js and component-driven architecture to mirror core social media functionalities. - Integrated scalable RESTful APIs and fine-tuned state management components to handle real-time data rendering and seamless user interaction.	
AI-Powered Resume Optimizer & ATS Analyzer <i>Python, Streamlit, NLP, RegEx</i>	Aug 2026 – Present
- Engineered an intelligent ATS resume optimization tool leveraging Python and Natural Language Processing (NLP) techniques to parse job descriptions and calculate keyword match scores with 95%+ precision. - Implemented automated semantic matching algorithms to evaluate resume phrasing against industry standards, boosting targeted keyword alignment and interview shortlisting potential by 40%.	

Technical Skills

- Languages & Frameworks:** Java, Python, JavaScript (ES6+), TypeScript, React.js, Node.js, Spring Boot, HTML, CSS
- Generative AI & Tools:** Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering, GitHub Copilot, Cursor
- Databases & Backend:** SQL, PostgreSQL, MySQL, RESTful APIs, Microservices, Apache Kafka, Database Management
- Tools & DevOps:** Git, GitHub, Docker, Postman, Linux/UNIX, Agile/Scrum, SDLC, Unit & System Testing, Secure Coding Practices

Education

Bachelor of Science (B.Sc.) in Information Technology <i>Dr. Shyama Prasad Mukherjee University, Jharkhand</i>	Aug 2021 – Jul 2024 <i>CGPA: 7.71 (Aggregate 60%+, No Arrears)</i>
--	---

Certifications & Achievements

- Superset Launchpad Top Performer:** Scored 89/126 overall with a perfect 10/10 Live Coding Score, demonstrating elite programming capabilities.
- JPMorgan Chase & Co. (2025 – 2026):** Completed Software Engineering Virtual Experience in enterprise architecture, secure coding, and cloud deployment.
- SAP Certified (2026):** Certified in SAP Build Apps & Fiori UX Design fundamentals for enterprise-grade SaaS.
- Deloitte Australia (2026):** Authored professional technical documentation for regulatory standards, data governance, and cloud compliance.
- Technical Quiz Certification:** Achieved top recognition in core technical and algorithmic programming evaluations.
